

SUMP Türkiye Webinar 24

30 October 2024

The 24th SUMP Türkiye Webinar, titled "Public Transport Planning," will take place on Wednesday, 30th October.

This webinar will address the importance of public transport in transportation systems, the challenges faced in cities across Türkiye, the core principles of a well-planned public transport system, emerging trends in public transport governance, and the integration of public transport with active mobility types. Global examples will also be explored during the session. Expert participants will include Prof. Dr. Ela Babalık Hamitoğlu, SUMP Izmir Team Leader, Dr. Volkan Recai Çetin, SUMP Türkiye Team Leader, Dr. Abdulmuttalip Demirel from SETS International, Dr. Kaan Yıldızgöz from Modaxo AMEA, and Veysel Sarıcı, Deputy Team Leader of SUMP Düzce.

Key Topics of SUMP Türkiye Webinar 24:

- Public Transport and Cities: Fundamentals of Sustainable Urban Mobility
- Integration of Public Transport into the SUMP and General Planning Approaches
- Challenges in Creating Attractive Public Transport Systems (financing, user-friendly ticketing, multimodality, real-time information, service continuity, etc.)
- An Overview of Public Transport Types and Selection Criteria

- Strategic Perspective on Public Transport Governance and Emerging Trends
- Interaction and Integration between Public Transport and Active/Micromobility Types
